SEMA

- Class Title:** MGT465 – Recovering From Cyber Security Incidents
- Class Date(s) / Time:** February 15-16, 2022 / 8:00 am – 5:00 pm
- Sponsor(s):** Missouri State Emergency Management Agency, Texas Engineering Extension Service (TEEX)
- Course Description:** The Recovering from Cybersecurity Incidents course is designed to provide guidance to a jurisdiction on the actions necessary to effectively recover from a cybersecurity attack. It discusses the pre- and post-incident programmatic activities needed for short-term and long-term recovery. It bridges the different worlds of information technology and emergency management. This training is particularly pertinent to IT management, emergency management personnel, as well as any other government, critical infrastructure, or private sector personnel who has the responsibility for recovering after a cyber incident. This course is intended to be delivered across the country to jurisdictions at all response levels: local, state, tribal, territorial, as well as private industry.

### *Course Objectives*

- Explain the essential concepts of recovering from a cyber incident;
- Explain the relationship between cybersecurity and emergency management;
- Examine recovery preparedness for cybersecurity incidents;
- Describe short-term and long-term recovery operations for cybersecurity incidents;
- Develop an incident recovery action plan.

- Target Audience:** Public Health, Public Safety Communications (911), Information Technology, Government Administrative, Emergency Management, Medical (Hospital), Public Works, Volunteer Organizations, Emergency Management Director, and Law Enforcement, and Transportation

- Location:** Cole County FPD Station 4 Training Room  
5206 Monticello Rd
